The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

FULL SPECTRUM OPERATIONS

Where does the SBCT fall into this chart ?

The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

Deployability

SEA

Ground Assault Convoy

AIR

The SBCT is capable of deploying using every medium available. All forms of deployment have been validated during two CTC rotations and internal deployment exercises. The SBCT can place sufficient combat power in theater in 96 hours or less. Additionally, the SBCT provides Combatant Commanders with a force capable of conducting early entry operations.

See First

Understand First

Act First

Finish Decisively

The SBCT applies the elements of combat power to effectively execute the operational template for success.

The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

Vignette 1

RSTA Squadron OP Identifies enemy element. Infantry Battalion develops an AO and sends the new AO to maneuver element and RSTA Squadron via FBCB2. Maneuver element commits forces to the new AO.

The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

Vignette 1

UNDERSTAND FIRST

While moving into position PROPHET receives enemy radio transmission identifying Strykers in the AO. Friendly forces stop movement.

The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

Vignette 1

PROPHET receives enemy radio transmission directing enemy forces to move back to their original position. RSTA requests CAS on original enemy position and clears fires through the maneuver BN.

The Stryker Brigade Combat Team (SBCT) And Small Scale Contingency Operations

Vignette 1

FINISH DECISIVELY

Maneuver forces position Stryker to Block and dismount Infantry. Infantry flanks original enemy position and destroys one mortar crew.
